

Milton & Vira Stuber Farm

W348 State Highway 35 & 54, Fountain City, WI 54629

The Hill and Hollow Helping Hands 4-H Club constructed the Barn Quilt for the Stuber's

Quilt pattern selected: The Apple Tree

Colors selected: Red, Green, and Blue

Why are you interested in having a Barn Quilt?

There is a lot of traffic that goes by the barn in a day. As 4-H Alumni we are interested in supporting the Buffalo County 4-H Program.

From your perspective, what is the most significant part of living in Buffalo County?

Buffalo County is a friendly community to live in, and there is a great sense of community pride here.

Were you a member of 4-H? If so, what was your most vivid memory of 4-H?

Yes, I was a member of the Montana Pioneers 4-H Club, and the kids were in the Hill and Hollow Helping Hands 4-H Club. My most vivid memories of 4-H was the fair and being with all the kids. It was an outing with everybody.

How long has the barn been in the family? Who bought it and when? When was the barn built? What was its original function? What is it used for now?

The barn has been in the family for 75 years. The barn was built in 1910 as a dairy barn. It was then used as an Apple warehouse for 50 years, and now is used for storage

Please share any interesting stories about the barn, the farm, the area, or your family:

Apples and Grape Fruit were sold at the family run Apple orchard. The family would travel to Texas to bring back the Grapefruit that was sold at the orchard.

Milton & Vira love their Barn Quilt
